

## **Boston Orthopaedic & Spine, LLC is participating in a Medicare Shared Savings Program Accountable Care Organization**

### **What's An Accountable Care Organization (ACO)?**

- An ACO is a group of doctors and other health care providers who voluntarily work together with Medicare to give you high quality service and care at the right time in the right setting. Boston Orthopaedic & Spine, LLC is participating in Mount Auburn Cambridge Independent Practice Association (MACIPA) and Beth Israel Deaconess Care Organization (BIDCO) a Medicare Shared Savings Program ACO.
- An ACO is **not** a Medicare Advantage Plan, (like an HMO or PPO), or an insurance plan.
- ACO's don't change your Medicare benefits.

### **How Will An ACO Help My Doctor Coordinate My Care?**

- Your doctors will have a more complete picture of your health through talking with your other doctors.
- To help you get a better, more coordinated care, Medicare will share certain health information with us about the care you get from your doctors and other health care providers unless you ask Medicare not to share it. Medicare may also share your health information with other ACO's in which your other doctors or health care providers participate.
- Boston Orthopaedic & Spine, LLC may continue to recommend that you see particular doctors for specific health needs, but it's always your choice about what doctors you see or hospitals you visit.

### **What Do I Need To Do?**

- If you want Medicare to share information about care you received with us, **there's nothing more you need to do.**
- If you do not want Medicare to share your health care information with Boston Orthopaedic & Spine, LLC, or other ACO providers who provide care to you, call 1-800-MEDICARE (1-800-633-4227) and tell the representative that your doctor is part of an ACO and you don't want Medicare to share your health care information. TTY users should call 1-877-486-2048.
- If you do not call 1-800-Medicare and request not to share your health care information, it will be shared with your ACO and with other ACOs in which any of your doctors or other healthcare providers participate for the purposes of care coordination and quality improvement.
- If you change your mind in the future, call 1-800-MEDICARE and tell the representative what you have decided.
- Even if you decline to share your health care information, Medicare will still use your information for some purposes, including certain financial calculations and determining the quality of care given by your health care providers participating in ACOs. Also, Medicare may share some of your health information with the ACOs when measuring the quality of care given by healthcare providers participating in the ACOs.

### **Questions**

If you have questions or concerns, you can talk with a Boston Orthopaedic & Spine, LLC provider at any time, and you can request more information about the Medicare Shared Savings Program and how to decline to share your health information with ACOs. You can also visit [www.medicare.gov/acos.html](http://www.medicare.gov/acos.html) or call 1-800-MEDICARE (TTY users should call 1-877-486-2048).
